Hospital Infection Control
2003 Index

Abstract & Commentary
Depression and infection, AUG:110
Group A strep strikes 24 workers, FEB:24
MRSA strikes home and hospital, NOV:148
Staff education cuts vent pneumonia, MAY:68

Acinetobacter baumanii
Outbreak strain resistant to available antibiotics, DEC:157

Antibiotic resistance
Active screening cultures urge for MRSA, VRE:JUN:83
Active surveillance cultures for pathogens with, OCT:131
FDA labels antibiotics due to rising drug resistance, MAR:42
Isolation guidelines for multidrug resistant bugs, JUL:92
Superbug claims two patients' lives, DEC:157
Why few new drugs are in pipeline, JUN:78

Bioterrorism
Covert chemical attack may be hard to detect, NOV:147

Bioterrorism Watch (Supplement)
Airborne smallpox fears fuel shots, MAY/JUN:19
Bioterrorism scientific research, JAN/FEB:5
Deaths and reactions to smallpox immunization, MAR/APR:13
Feds forced anthrax vaccination campaign, MAR/APR:15
Heart attacks after smallpox immunization, MAY/JUN:17
Hospitals, communities unprepared for, MAY/JUN 20
Influenza as the ultimate bioweapon, SEP/OCT:33
IOM urges minimum levels of smallpox readiness, NOV/DEC:44
Israeli health care workers resist vaccination, MAR/APR:9
Nature as ultimate threat, JAN/FEB:7
Pregnant women inadvertently vaccinated for smallpox, JUL/AUG:30
Psychological problems following an attack, MAY/JUN:22
Scientists urge conference on flu as bioweapon, SEP/OCT:35
Significant planning required smallpox program, MAY/JUN:24
Signs that plague has been artificially disseminated, JUL/AUG:27
Smallpox adverse reaction algorithm, MAR/APR:12
Smallpox apathy abounds, SEP/OCT:38
Smallpox immunity may persist from childhood, NOV/DEC:45
Smallpox pause urged, JUL/AUG:28
Smallpox vaccine and pregnancy, JUL/AUG:30
Smallpox vaccine contraindications, JAN/FEB:3
Smallpox teams in hospitals, JAN/FEB:4
Smallpox pre-screening critical, JAN/FEB:1
Smallpox program hiatus, NOV/DEC:41
Smallpox program stalled out, NOV/DEC:43
Syndromic surveillance for agents, SEP/OCT:37
Tourists with plague trip alert, JUL/AUG:25
Use only three sticks for first-time smallpox vaccinees, MAR/APR:11
Web link to real-time terror, SEP/OCT:40

Bloodborne pathogens
Infected surgeon urges worker testing for, JUN:88
Providers infect patients with, JUL:89

Centers for Disease Control and Prevention
Antibiotic-resistance training tool for labs, FEB:25
Infection control guidelines for smallpox vaccinees, APR:2003
Isolation guidelines being drafted by, JUL:91
N-95 respirator shortage and alternatives, JUN:76
Pulls out all stops against new syndrome, APR:53
SARS guidelines by for ambulatory care, MAY:62
SARS prevention in triage and waiting rooms, NOV:139
Smallpox vaccination site care guidelines, APR:49

Creutzfeldt-Jakob disease (CJD)
Nightmare encounter with undiagnosed patient, MAY:67

Food and Drug Administration
Labels antibiotics due to rising drug resistance, MAR:42
Smallpox vaccinees should skip blood donation, APR:53

Group A Streptococcus
Occupational transmission in the operating room, NOV:142

Hand hygiene
Add patients to your team, MAY:67
Alcohol rubs cause adverse reactions, MAR:43
Fire marshals fight alcohol hand rubs, APR:2003
Questions about dispensers in hospital corridors, OCT:133

Healthcare Infection Prevention (Supplement)
AIDS vaccine quest continues, SEP:120
Community-acquired MRSA undermines empiric therapy, DEC:159
HCV in prisons, MAR:35
HCV outbreak traced to needle reuse, JUN:79

Need back issues? Call our order department at (800) 688-2421; inside Georgia (404) 262-7436. Copyright © 2003 Thomson American Health Consultants.

Influenza news includes nasal delivery, SEP:119
MRSA in the community, JUN:80
Q&A on MRSA in community, DEC:160
Strep pneumo vaccine and cochlear implants, SEP:120

Hepatitis
HCV outbreak in transplant patients, JUN:82
HCV outbreak traced to needle reuse, JUN:79

HIV
AIDS vaccine quest continues, SEP:120
PEP quiz on handling HIV-positive needlestick, APR:55
Smallpox vaccination raises concerns those infected with, FEB:16

Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC)
Highlights of 2003 meeting, OCT:133

Infection control professionals
Expert witness tips for, AUG:101
Salaries and rising professional profile, NOV:Salary Sup
Smallpox vaccine offered to, JAN:1

JCAHO Update for Infection Control (Supplement)
ICPs won't push for staffing formula, FEB:20
ICU core measure test sites sought NOV:145
Infection control and the environment of care, MAY:65
Infection control standards for 2004, AUG:105
Infection data may not aid prevention efforts, AUG:103
Looking at timing of antibiotic prophylaxis, FEB:21
National infection control conference slated, NOV: 143
Nosocomial infections may be 2004 focus, MAY:66
Patient safety goals for 2004 include infections, NOV:146
Periodic performance review legal options, NOV:145
Spotlight projects during inspections, NOV:144
Surveyors checking patient safety goals, FEB:22
Unannounced surveys may catch ICPs off guard, MAY:63
Urges ICPs to report fatal infections, FEB:19
Urges passage of patient safety regulations, AUG:106

Joint Commission on Accreditation of Healthcare Organizations
Congressional watchdog asked to look into changes by, FEB:25
Defends infection control record, JAN:3
Draft standards detail policy demands, AUG:109
Future standards may emphasize staffing, MAR:29
Health care administration must answer to standards, DEC:153
Highlights of 2005 infection control standards, DEC:155
New standards, surprise inspections, AUG:97
Q&A on infections as sentinel events, DEC:156
Radical revision under way at, JAN:5
Raises profile of infection control, JAN:1
Sounds alarm about nosocomial infections, FEB:15
Surprise party for ICPs, AUG:99

Journal Reviews
False alarm on handrub fires, NOV:151
Flexible endoscopy gold standard, SEP:123
Improved hand hygiene with alcohol rubs, OCT:136
Pneumococcal vaccination in emergency rooms, FEB:27
Quiz on handling HIV-positive needlestick, APR:55
SARS race is on, MAY:68
Sentinel system be expanded, MAY:71
SHEA urges active screening cultures for MRSA, VRE:JUN:83
Two distinct SARS strains discovered, AUG:110

Long-term care
Strain of norovirus wreaks havoc in, MAR:34

Methicillin-resistant **Staphylococcus aureus**
Bold move into the community, APR:51
Community acquired emerging in Los Angeles, MAR:32
Community strains and role of family spread, JUN:80
SHEA urges active screening cultures for, JUN:83

Needlesticks
Needle safety is the law, JAN:6
OSHA inspectors review devices to prevent, JAN:8
State laws on needle safety, JAN:7
Quiz on handling HIV-positive injury, APR:55

Nosocomial infections
Consumers report experiences with, JAN:9
JCAHO sounds alarm about, FEB:15
Staffing shortfalls linked to increase, DEC:161
Staffing woes, new nurse's account of, DEC:161

Occupational Safety and Health Administration
Inspectors for review needle safety devices, JAN:8
TB standard officially history, JUL:93

Pharmacy
Poor infection control at compounding lab,MAR:40

Readers Write
Hand hygiene compliance monitoring, SEP:118
JCAHO address fire risk of hand rubs, APR:47

Salmonella
Outbreak hits children's hospital, AUG:109

Scabies
Creepy bug strikes fear in workers, AUG:107
Patient, worker handout on, AUG:108

Semmelweis, Ignaz
Moment of insight followed by derision, SEP:115
Vindicated in new age of hand hygiene, SEP:113

Severe acute respiratory syndrome (SARS)
Algorithm for diagnosis, OCT:128
CDC guidelines for in ambulatory care, MAY:62
CDC pulls out all stops against new syndrome, APR:53
Dealing with it in the hospital, JUN:77
Guidance when no SARS is in-house, OCT:127
